YBB-632	The new Bb Bass model YBB-632(S) is a complete redesign for the needs of all brass band players. Together with Simon Gresswell Yamaha designed an instrument which can lead the low-brass section with a large and voluminous sound which never loses focus easily. The exceptional large bell of 500mm is just one major point. The ergonomically enhanced valve cluster and 4th valve position offers great comfort and better operability. MSS-9314	The new 14"x9" SFZ (Sforzando) marching snare drum is a full three inches shorter in depth than the standard Yamaha SFZ snare drum. With a short nine-inch shell depth for a quick snare response, the drum offers a light weight six-ply maple shell for a clear articulate projection. An additional benefit: The short size allows easier range of movement for competitive indoor marching ensembles. Head: batter side - Yamaha REMO White Max, snare side - Yamaha Remo Falam II snare side.	1,110 €	959 €
